Bespoke

For over fifty years, we have made design-led ceramics and other giftware to be used and loved every day. Alongside our collections, we also offer bespoke printing, creating custom designs exclusively for you.

Contact **beatriz@customworksespana.com** for more information.

Screen-printed,
hand-decorated,
and kiln-fired

Did you know?

OUR KILNS REACH AROUND 800-820°C. Hot enough to permanently fuse artwork to bone china and give each mug its forever finish.

Each mug takes **SIX PAIRS OF HANDS** on average to produce**.** Specialists design, print, trim, decorate, fire and check each one. Craft really is a team effort.

Our most colourful design uses over **EIGHT SEPARATE LAYERS OF INK**. Each colour is printed individually to build the finished print.

WE HAVE MUG DESIGNS OLDER than some of our staff. Decades-long classics that just keep selling.
